DECEMBER 2017

Calling all animal lovers

During the month of December, Power Alarm will be collecting donations for our local animal shelter. Please consider helping our furry friends this holiday. You can drop off your donation at our office

Most needed items needed are

One inch slip leashes, Liquid Laundry Detergent, Bleach, Fabric Softener Sheets, Garbage Bags (13 gal. and 33 gal. or larger), Washable Cat/Dog Toys, Canned Cat & Dog Food, Cat Litter (non-clumping), Postage Stamps, Potty pads, IAMS kitten food

*You may also send in a donation with your bill, any monies received will be matched by Power Alarm.

Telephone lines are making their exit in society and it's time to bring in a better and more reliable way to monitor your alarm system.

Telephone lines CAN BE COMPROMISED. If you have internet lines and your power goes out, you lose your phone line which causes you to lose communication to our Central Station. Phone lines can be tampered with also causing a loss of communication.

CELLULAR MONITORING is a way to monitor over the digital cellular network. Call today to upgrade your signal of communication to our cellular service.

**Wishing you and your family
a safe, happy, and secure
holiday.**

**From your friends at Power
Alarm**

Have your security needs changed since your system was originally installed?

**Are you up to date with the newest technology
Power Alarm has to offer?**

Power Alarm offers options to stay connected to your smart home or business while on the go.

Arm and disarm your system from virtually anywhere, check your system's status and view recent activity at home, these are just a few of the newer things Power Alarm has to offer.

Interested in Cameras?

Power Alarm's WiFi Doorbell Camera allows you to see who's at the front door through an app with a Two-way voice that lets you speak to visitors at the door, from anywhere, also offering a log of live clips any time the button is pressed.

Whether your needs are a simple one camera system to 1000 camera system, we offer all solutions including remote video via the Internet and video right to your cell phone too! We'll design a custom solution that addresses your needs within your budget.

Video security is becoming more widespread. It is used every day as a means of keeping track of employees, locations, entryways and more. Originally designed to monitor safety concerns, video security is continually evolving, making it the ideal solution for many types of businesses and home uses.

Help your business to prevent accidents or wrongdoing and protect your people and your property from potential perpetrators.
